

### REMARKS

Applicants thank the Patent Office for the careful attention accorded this Application and respectfully requests reconsideration in view of the Amendment above and remarks set forth below.

In response to the Office Action mailed October 5, 2005, Applicants have canceled claims 93-109 without prejudice or disclaimer, and added new Claims 110-127, which are based on the canceled claims. Applicants reserve the right to file one or more continuation applications based on the canceled claims.

Applicants have also amended the Specification to ensure correspondence between the Specification and the Formal Drawings, and have also amended the Abstract of Disclosure to avoid any basis for rejection under MPEP 608.01(b).

Applicants include a Terminal Disclaimer to overcome any future judicially-created obviousness-type double patenting rejection that may arise in view of US Application No. 10/755,869.

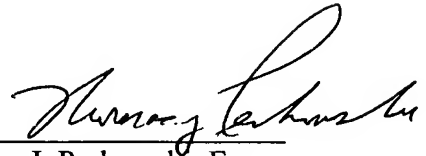

In view therefore, of the Amendment and Remarks set forth above, the present invention defined by new Claims 110-127 is firmly believed to be neither anticipated by, nor rendered obvious in view of the prior art of record, and that the present application is now in condition for allowance.

Favorable action is earnestly solicited.

The Commissioner is hereby authorized to any fee deficiencies to Deposit Account No. 16-1340.

Respectfully submitted,

Dated: March 6, 2006
